Dear Lyn,

I accept your proposal, in your letter to me of 15 May 2003, for the revised list of CERN official contacts for the US LHC Accelerator Project, in which Phil Bryant replaces Tom Taylor as the official contact for the US Project as a whole, due to Tom's recent retirement.

This exchange of letters documents our mutual agreement to revise Appendix 1 of the Implementing Arrangement. I am sending a copy of this letter, with your letter and the revised Appendix 1 as attachments, to the other signatories of the Implementing Arrangement to notify them of the change, as required by Article III.B.

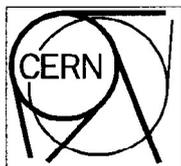

I would like to express my strong thanks to and recognition of Tom Taylor, who has been a tireless advocate of the US-CERN collaboration. His excellent judgment, splendid technical taste, and steady hand have been essential to the success of our collaboration.

Best regards,

James Strait
Project Manager
US LHC Accelerator Project

Dear Jim,

As you are well aware Tom Taylor is retiring and it becomes an urgent matter to revise the "official contacts list" in Appendix 1 of the Implementing Agreement.

The Implementing Agreement requires that we come to a mutual agreement over such changes (Article III.B). I can then modify the Appendix 1 without further approval (Article VI) and inform the other signatories (Article III.B).

I should therefore like to propose the change shown below and I look forward to receiving your early reply.

Appendix 1

CERN Official Points of Contact for Technical Information

WBS	Task	Point of Contact.
1	U.S. part of the LHC Accelerator Project	Philip J. Bryant
1.1	Interaction regions	Ranko Ostojic
1.2	RF straight sections	Ranko Ostojic
1.3	Superconducting strand and cable	Daniel Leroy
1.4	Accelerator Physics	Francesco Ruggiero.

Yours sincerely,

L.R. Evans
LHC Project Leader
